

## COMMONLY ASKED QUESTIONS

- ?** What are the benefits of the inSight® 3D wound management system for client and patients?
- Saves time and improves accuracy of the wound evaluation process
  - Improved, more accurate and time efficient approach of capturing data during wound evaluations
  - Highly accurate calculations of measurements such as length, width, depth, area, volume, and percentages of tissue classification all within 10-15 seconds
  - Eliminate measurement discrepancies between clinicians
- ?** Will there be any financial commitment to start the inSight 'demo' period?
- No long-term commitment or contracts
  - There is a daily rental rate established depending on users and hardware required
- ?** What should my expectations be during an inSight 'demo' period?
- For the user to experience immediate imaging efficiencies in the evaluation of wounds
  - Discover the benefits for the wound care team and their patients
  - Determine the value of inSight for their facility
- ?** What information do I need to start using the inSight device?  
Establishing a user account with username and password
- ?** How does the program protect patient information?  
Patient information does not have to be stored on the inSight cloud platform during the trial period. Once the trial is complete and the user decides to fully implement the inSight program, no clinical information is stored on the mobile device. All data collected is synced to the eKare cloud which is fully HIPAA-compliant with built in measures for privacy, data encryption, and security.
- ?** Will integration to my current system be a barrier to using inSight to its full capacity?  
Our integration team will provide an evaluation and strategy to easily integrate with the inSight program.
- ?** How much does it cost?  
No long-term commitment. Established daily rate includes utilization of both tablet with 3D camera and inSight wound management program.

eKare, Inc. is a medical device company based in Fairfax, VA and the developer of the inSight 3D wound management platform. Ethos Therapy Solutions markets, distributes, and sells the inSight technology as a strategic partner of eKare, Inc.
